

Ombrina 001 Gazebo

Design Antonino Sciortino

Technical Information

OMBRINA is an outdoor gazebo, deliberately essential and practical: a horizontal roof breaks up the sunlight, while a slender and transparent frame defines a project from the Mediterranean soul that naturally combines the Italian design taste of the handcrafted outdoor furniture with industrial production capacity. The structure of OMBRINA can be easily moved thanks to practical wheels; optional curtains, in white or grey mélange colours, help to create an intimate and private setting, away from prying eyes.
